

Controlled Assessment Policy

Introduction

This policy is produced in accordance with the current JCQ guidelines, available on the shared drive under the Accreditation folders. From 2016-2017, most GCSE subjects will have no CA component as this has been replaced with Non-Examined Assessment (NEA). There are still some Entry Level Qualifications which require this policy to be in place. For Coursework requirements, see the relevant specifications and the JCQ publication ICC for the relevant year (saved on the shared drive under Accreditations)

Control levels (High, Medium or Low) are set for each part of the process: task setting, task taking and task marking.

Managing controlled assessment requires:

- Allocation of roles and responsibilities to different members of staff
- A controlled assessment policy in place
- A centre-wide plan to co-ordinate-controlled assessment activities
- The monitoring of progress of controlled assessment tasks

Staff responsibilities - Controlled assessment

Management Team

- Is accountable for the safe and secure conduct of controlled assessments.
- Ensures assessments comply with JCQ guidelines and awarding bodies' subject-specific instructions.
- At the start of the academic year, will begin coordinating controlled assessments. (It is advisable that controlled assessments be spread throughout the academic years for years 9-11)
- Ensure that individual teachers understand their responsibilities about controlled assessment.

Subject Leaders

- Decide on the awarding body and specification
- Inform Exams Officer of dates/boards/specifications for controlled assessments
- Inform Centre Manager of timetable requirements in sufficient time to ensure adequate provision can be made
- Ensure that at least 40% of overall assessment (controlled and/or external assessment) is taken in the exam series in which the qualification is certificated, to satisfy the terminal assessment requirement in accordance with the awarding body specification
- Standardise internally the marking of all teachers involved in assessing an internally assessed component
- Ensure that the requirements are understood of the awarding body's specification and are familiar with the relevant teachers' notes, and any other subject specific instructions
- Where appropriate, develop new assessment tasks or contextualize sample awarding body assessment tasks to meet local circumstances, in line with awarding body specifications and control requirements
- Mark internally assessed components using the mark schemes provided by the awarding body. Submit marks through the exam's office to the awarding body when required, keeping a record of the marks awarded
- Retain candidates' work securely between assessment sessions (if more than one)
- Post-completion retain candidates' work securely until the closing date for enquiries about results. If an enquiry is submitted, retain candidates work securely until the outcome of the enquiry and any subsequent appeal has been conveyed to the centre

- Will ensure access arrangements have been applied for within the designated timeframes.
- Will download and/or distribute marksheets for the use of teaching staff

Exams Officer

- Will enter learners for all units, whether assessed by controlled assessment internally or externally assessed, before the awarding body deadline
- Where confidential materials are directly received, the exams officer, will be responsible for receipt, safe storage and safe transmission, whether in CD or hard copy format

Policy

- Controlled assessments should be suitably incorporated into individualised timetables and learning plans where appropriate.
- A centre-wide plan should be in place to ensure deadlines are met and that young people's achievements are not compromised.
- All teachers will be expected to plan work effectively to incorporate controlled assessments into their teaching time, liaising with other education providers if required.
- All relevant staff (as outlined in staff responsibilities) should obtain all the necessary information from the relevant awarding body concerning the assessment task and the controls (see below) which need to be applied to it.

Appropriate levels of control

The level of control varies across different subjects. Subject Leaders will be expected to ensure the appropriate level of control is in place for each part of the process

Task Setting

Awarding body: Low, medium or high control

Task Taking

1. Low control: For English, the awarding body will provide guidance on devising their own speaking, listening and communication tasks at each level to centres.
2. Medium Control: The awarding body will set tasks for the reading and writing components at each entry level.
3. High control
 - Task preparation – may take place under informal supervision
 - Task sitting - must be under controlled conditions. During the assessment the learner must be in the direct sight of the supervisor at all times.

Task Marking

1. High Control – the awarding body does the marking
2. Medium Control – work is assessed by teachers and moderated by the awarding body

Entry Level English

Speaking, listening and communication task setting: low control A low level of control means that Pearson will provide guidance on devising their own speaking, listening and communication tasks at each level to centres. Learners must complete activities to cover all the requirements of the skill standards at the level they are studying.

Reading and writing task setting: medium control A medium level of control means that Pearson will set tasks for the reading and writing components at each entry level. For each level of the reading component Pearson will set six tasks and learners must complete all the questions for two tasks at the level of which they are

studying. For each level of the writing component Pearson will set two tasks and learners must complete both tasks at the level at which they are studying. The reading and writing tasks will be replaced each year.

When will the tasks be available?

The reading and writing tasks will be made available for centres before the start of the academic year. They will be available for secure download from our website. Each task will be valid for submission on any assessment window in the forthcoming year.

When should the task be made available to learners?

Learners should only be permitted access to the task at the point of assessment.

Task taking: high control

Learners' preparation for a task should include the development of the functional skill. Preparation may take place under informal supervision

- Authenticity control: preparatory work may be completed under limited supervision.
- Supervision: an appropriate person should supervise the learner. It is acceptable to use an assessor/invigilator who the learner feels comfortable with and knows well.
- Dynamic assessment: artefacts, flash cards and media may be used in assessment to supplement the tasks/texts set, provided the learner produces an independent response to the task
- Feedback: tutors may support learners through the preparation process
- Collaboration: learners may collaborate in preparation but must provide an individual response to the task
- Resources: learners should use the range of appropriate resources available to the centre. The same range of resources must be made available to all learners within a centre

The controlled assessment

The completion of a task must be under controlled conditions. During the assessment the learner must be in the direct sight of the supervisor at all times. Input such as clarification of the requirements, reading the questions for the writing component etc is acceptable

- Learners must be provided with a suitably quiet, undisturbed location, with adequate heating and lighting.
- The accommodation normally used by learners may be used for assessment. There is no need to remove posters, displays or materials containing information relevant to that which is being assessed. However, displays should not provide a prepared answer to the task questions. It is acceptable for the learner to draw on external sources (with the exception of direct help from the assessor) during the assessment period.

Controlled conditions

Learners will be able to complete a task only when supervised. If this takes place over more than one session, learners' materials must be collected in at the end of each session, stored securely and handed back at the beginning of the next session.

The completed assessment record sheets and assessment evidence for a sample of the cohort must be retained at the end of the controlled assessment for verification purposes.

Learners with agreed particular requirements, in relation to their mode of learning or assessment, can have their usual support, unless this compromises the outcome of the assessment. Those providing assistance should refer to appropriate access regulations on the Pearson website.

Learners may have access to:

- notes, which must be checked to ensure they do not include a prepared response
- a dictionary.

Learners must not have access to:

- prepared response

These levels of control apply for the Pearson Entry Level English Specification until August 2021. For guidance regarding controlled assessment for the reformed English qualification please refer to the following documents:

- 2019 English [specification](#)
- [Instructions for the Conduct of Controlled Assessments](#)
- [Quality Assurance Handbook](#).

These regulations for the new specification will apply from September 2020 and will run alongside the legacy qualification which has now been extended until August 2021.

Entry Level ICT

Task setting: medium control

A medium level of control means that Pearson will set three assessment tasks at each entry level. Learners complete one task at the level that they are studying. These tasks will be replaced each year.

When will the tasks be available?

The tasks will be made available for centres before the start of the academic year. These will be available for secure download from our website. Each task will be valid for submission on any assessment window in the forthcoming year.

When should the task be made available to learners?

Learners should only be permitted access to the task at the point of assessment.
